EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Tom Finn on 10/2/05.

The application has been amended as follows:

-In the claims:

9. (currently Amended) A male genital protective device providing increased comfort for a wearer and configured for positioning the male penis in an upward position against the human body and the testicles in a horizontal position below the penis wherein said device is comprised of a rigid material capable of withstanding a blunt force blow and absorbing and diverting the impact of said blow away from the genital area to the pubic bone region; and two separate oval portions for containing left and right testicles.

Art Unit: 3743

The following is an examiner's statement of reasons for allowance: As to claim 1, the prior art of record does not teach nor render obvious the overall claimed combination of a male genital protective device with an oval portion shaped to conform to a testicles within a male testicles. As to claims 5 and 9, prior art does not teach a male genital protective device with a portion shaped to conform to a male scrotum, wherein said portion is formed into two separate portions for containing the left and right testicles. Therefore, the invention defined in claims 1,3,8,6, and 9 is novel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
